-In case of Monthly Rights the curtailment is qualified as a Reservation Subperiod

Please take into consideration for submitting the bids.

Attention!

You can submit your bids only in KAPAR System

We can not accept bids by fax for this border

5 Allocation of capacity rights of the Hungarian side of the Ukrainian–Hungarian cross-border section(s) conducted by MAVIR

The allocation process is conducted according to the Auction Rules set out in Appendix M4A of the Commercial Code. The auction is a unilateral auction. This means that only ATC of cross-borders section's Hungarian side is to be allocated. Since the right to use the Ukrainian side of this cross-border section is also to be ensured, obtaining the capacity right on the above auction is a condition to the delivery of electricity on this cross-border section, however this is not the only and exclusive condition thereof.

Attention!

You can submit your bids only in KAPAR System

We can not accept bids by fax for this border
